OVERVIEW

The National Artificial Intelligence & Human Resource Transformation promises to be an important event, gathering leading HR professionals, tech experts, and industry innovators to revolutionize HR practices in our increasingly digital world. With the theme Artificial Intelligence for Effective, Inclusive, and Sustainable Workforce Management," this conference empowers HR leaders with the essential tools, insights, and skills to harness technology and data analytics for transformative organizational change.

Why HR Professionals Must Attend this Conference ?

The National Artificial Intelligence & Human Resource Transformation 2026 is an essential event for HR leaders seeking to navigate the complexities of the digital era and drive transformative change within their organizations.

With its focus on "Artificial Intelligence for Effective, Inclusive and Sustainable Workforce Management", the conference provides critical tools, insights, and skills to harness AI and data analytics. Attendees will gain a comprehensive understanding of the latest HR technologies, learn data-driven decision-making strategies, and explore HR's pivotal role in leading organizational digital transformation. This immersive experience offers practical takeaways, fostering collaboration and empowering HR professionals to redefine their function as a strategic, data-centric partner in organizational success. Additionally, this conference is designed to be a melting pot of ideas and innovation, bringing together industry thought leaders revolutionising workplaces. Participants can meet and exchange ideas with peers facing similar challenges.

This Conference Programme has top local and global Speakers sharing valuable knowledge and experiences while the topics have been specially crafted and curated to ensure that every HR person that attends this conference leaves understanding the various forces that are shaping not only the world but are continuing to drive the HR function to its new form in the near future.
